

ANIMAL CONNECTION

with Dr Lisa

Welcome

What is *Animal Connection*?

Empowering You to Find Your Voice

Do you have a connection with animals? Do you want to do more, make a difference in the world for your pet?

Are you curious to learn how to better understand your pet to provide for them?

Perhaps you are looking for guidance on how to trust your intuition.?

You have come to the right place!

Welcome to Animal Connection. A place for like minded, spiritually sensitive humans to find their voice, to create a better world for their animals.

To learn, grow and empower you to realise your untapped ability to connect on a whole new level.

ABOUT YOUR MENTOR

*Hello I'm
Dr Lisa!*

' I've been communicating with animals ever since I was a little girl. I always knew what they were thinking and could hear them talking to me, answering questions I asked of them.'

Originally from Washington State, USA, Lisa graduated from Murdoch University in 2005. After graduation Lisa practiced as a mixed animal veterinarian in the US for a year and then returned to Australia where she worked in a busy mixed animal practice here in Perth for 2 years. In 2009, Lisa left private practice to accept a position within the Murdoch University Veterinary Teaching Hospital, where she spent a year in the Referral Small Animal Medicine department and then joined the General Practice as a Registrar from 2010 to 2013. During that time (2010), Lisa achieved membership by examination to the Australian College of Veterinary Scientist in Small Animal Medicine. In 2012, Lisa started LDW Veterinary Consultancy where she works closely with mining companies, government agencies, research groups and wildlife organizations as a veterinary consultant for our unique Australian wildlife.

Currently, Lisa is a Senior Veterinarian at Wattle Grove Veterinary Hospital. Wattle Grove Vet offers veterinary support and treatment of injured wildlife for Kanyana wildlife rehabilitation center on a daily basis.

DR LISA WINTERS BSC, BVMS, MACVSC (SMALL ANIMAL MEDICINE)

Animal Communication

Brand New Program
COMING SOON

with Dr Lisa

The program has been created with 10 weeks plus 1 bonus week of online, self-driven objectives that have been explicitly designed to help develop and strengthen your animal communication connection.

These objectives can be done at your own pace in the privacy of your own home, in your own time. You're not required to have completed the online objectives to attend the interactive weekly Zoom sessions. Still, I strongly encourage you to follow through with them as they have been created to prepare you for doing one-on-one readings and direct animal communication with a wide variety of animals.

Once you have joined the program, I will go through each objective in-depth within the private FB group that is only open to members who have joined the program. In this group, we will share experiences and discuss in-depth, your results from each objective.

I will personally mentor you through the process. It will also be the space to practice animal communication by sharing photos and messages that come from animals.

ANIMAL COMMUNICATION

and videos

Weekly Zoom Mentoring Session

Private Facebook Group

Weekly Zoom Mentoring Meetings

Each week we will meet for 2 - 2.5 hrs via Zoom.

We will review the weekly objectives you've learned and how they can be put to practice.

Each week we will practice doing animal communication readings with each other in special zoom breakout rooms. You will be asked to bring in photos of animals you would like to have read. They can be still with us or passed over the rainbow bridge.

You will have full access to me during these sessions to ask questions and interact with your fellow animal communicators.

I will also be sharing many of my experiences and stories with you as inspiration

I will also introduce you to your referencing system and how that works for you.

What to Expect

What is Animal Communication?

- Telepathic Communication
- Mother's intuition
- Gut feeling
- Fun, moving and for some life changing

What is it NOT?

- Substitute for Training
- Substitute for Veterinary Consultation

Outcomes & Achievements

On completion of this program you will be

Comfortable and confident in doing one on one readings for yourself, friends, family and the general public.

Able to do readings of all animals from a photo or in real-time with the animal in front of you.

Able to start charging the public for your one on one readings.

Have learned tools of self-care to help you balance life and work.

Have learned how to do body scanning, work with a pendulum and how to work with lost pets.

Have gained tools to start developing your own animal communication business services and the ethics associated with that.

Continue to have access to the Private Facebook group to continue practicing and sharing your experiences with animal communication.

Receive a certificate of completion of this professional program

Have an opportunity to work with me one on one to take your animal communication business to the next level.
